School Mission

Our School strives: -

- i To enable the child to live a full life as a child and to realise his potential as a unique individual.
- ii To enable the child to develop as a social being through living and co-operating with others and so contribute to the good of society.
- iii To prepare the child for further education and lifelong learning.

We acknowledge that it is important for pupils to have a solid grounding in the basics of Language and Mathematics. However we do not consider that attention to this vital area should so dominate the Curriculum as to stunt, restrict or impoverish the quality of education offered in our school.

Recognising the climate of social and economic change that prevails in Ireland today, we accept it as part of our role to introduce pupils to attitudes and skills which will equip them to make positive and creative use of their leisure time now and in the future. We accept that many of our pupils may be coping with the dilemma of having one set of Religious values proclaimed in their Religious Programme in school and the same set of values ignore or belied in the home.

We will endeavour to strengthen the bonds of partnership with parents, clergy and community in our work. With these associates we co-operate and try to come to a consensus on the knowledge, values and culture which we hope will contribute to the formation of balanced integrated persons.
